Seat Drawing: Cushion, Legs, and Backrest Variants

Original worked example / unchanged complete key

Prompt: Draw a seat with a 14 cm by 9 cm plate, a 12 cm by 7 cm cushion, four 1 cm by 11 cm legs, and Variant B curved backrest 12 cm wide and 8 cm high at center. State margins and a ratio check.

Answer: Plate 14 by 9; cushion 12 by 7 centered gives side margins (14-12)/2 = 1 cm each and front/back margins (9-7)/2 = 1 cm each. Four legs 1 cm wide total 4 cm. Backrest height 8 cm to plate depth 9 cm is ratio 8:9. Drawing shows plate, centered cushion with front edge band, four parallel legs at corners, and a centered shallow arc backrest behind the cushion.
