Draw a Tres Leches Cake: Soak, Cream, and Slice Detail

Worked example / complete source key

Draw a whole tres leches cake on a plate with visible soak texture, a cream topping, and one garnish. Then draw a slice cross-section beside it showing the cream band and soaked sponge.

Answer: The whole cake is a short cylinder on an oval plate. The top ellipse is flat, about 9 cm by 3.5 cm (hypothetical). Broken dashes cluster in the center, leaving the outer third clear. A wavy cream band with two soft swirls sits on top, and a small strawberry rests off-center on the cream. The slice is a wedge about 6 cm long and 4 cm tall. A cream band about 0.8 cm thick sits near the top, a soaked base about 0.5 cm thick sits near the bottom, and the middle sponge has small dashes. The slice's curved back matches the cake's top curvature.
