Cat Feet Drawing: Front and Back Paw Anatomy

Original worked example / unchanged complete key

Prompt: Draw a front-view cat paw in a 4 cm wide trapezoid. Place four toe pads and one central pad with even gaps. State the pad count and one measurement check.

Answer: The drawing shows a rounded trapezoid 4 cm wide at the top and 3 cm at the bottom. The central pad is a wide oval in the lower third with a 3 mm margin. Four toe pads arc above it, each about 1 cm tall and 0.8 cm wide. Pad count: four toe pads plus one central pad. Check: the central pad is wider than tall, and no pad touches the outline.
