Cracked Glass Drawing: Radial Fractures and Shard Shading

Original task 1 / independent drawing and calculation

Task 1

Draw a cracked glass pattern with an impact point near the top-left corner. Use six primary radial lines and two rings. Shade four shards with tones 1, 2, 1, 2.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Cracked Glass Drawing: Radial Fractures and Shard Shading

Original task 2 / independent drawing and calculation

Task 2

Draw a cracked glass pattern with a centered impact point. Use five primary radial lines of lengths 50, 60, 55, 65, and 45 millimeters. Add three rings at 15, 30, and 50 millimeters. Shade five shards using cross-hatching.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Cracked Glass Drawing: Radial Fractures and Shard Shading

Original task 3 / independent drawing and calculation

Task 3

Draw a cracked glass pattern with an off-center impact point 30 millimeters from the right edge. Use seven primary radial lines and two rings. Shade six shards with tones 1, 2, 3, 2, 1, 2.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Cracked Glass Drawing: Radial Fractures and Shard Shading

Original task 4 / independent drawing and calculation

Task 4

Draw a cracked glass pattern with an impact point near the bottom center. Use five primary radial lines and three rings. Shade four shards with parallel strokes, keeping the impact area lightest.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
