Fire and Ice Drawing: Contrasting Elements with Texture and Color

Original task 1 / independent drawing and calculation

Task 1

Draw a flame 5 cm tall and an ice block 5 cm tall side by side. Use only pencil. Add at least six fire strokes and six ice strokes.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Fire and Ice Drawing: Contrasting Elements with Texture and Color

Original task 2 / independent drawing and calculation

Task 2

Draw the same flame and ice block but use two colors: one warm and one cool. Keep the colors on their own sides of a light divider.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Fire and Ice Drawing: Contrasting Elements with Texture and Color

Original task 3 / independent drawing and calculation

Task 3

Draw a flame with a bright core near the base and a darker tip, and an ice block with bright upper facets and cooler lower areas. Use pencil shading only.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Fire and Ice Drawing: Contrasting Elements with Texture and Color

Original task 4 / independent drawing and calculation

Task 4

Draw a flame and ice block where the flame leans left and the ice has four facets. Add a short label under each using the baseline-to-midline convention for letter height.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
