Ink Flower Drawing: Petal and Leaf Stroke Practice

Original task 1 / independent drawing and calculation

Task 1

Draw a practice panel with baseline at 0 mm and midline at 8 mm. Draw six petal strokes from one center point, alternating directions, each about 12 mm long as a hypothetical example. Check that no tips cross.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Original task 2 / independent drawing and calculation

Task 2

Draw four leaf strokes from a vertical stem line. Start each at the stem and taper toward the tip. Use leaf length 18 mm as a hypothetical example. Check that each base meets the stem.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Ink Flower Drawing: Petal and Leaf Stroke Practice

Original task 3 / independent drawing and calculation

Task 3

Build one flower with a center, five outer petals, and three inner petals. Add one stem and two leaves. Use petal length 14 mm and leaf length 19 mm as hypothetical examples. Check balance by comparing left and right petal counts.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Ink Flower Drawing: Petal and Leaf Stroke Practice

Original task 4 / independent drawing and calculation

Task 4

Draw a cluster of two flowers and three leaves in one panel. Use different petal counts for each flower, such as five and seven, as a style choice. Check that stems do not cross and that x-height is measured on the actual panel.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
