Draw a Small Creature from Shape Blocks: A Step-by-Step Guide

Original tasks 1, 2 / independent work

Task 1

A creature has a total height of 8 units. The head zone is 2 units, the body zone is 3 units, and the leg zone is 3 units. What is the total of the three zones?

Task 2

A body block is 6 units wide and centered on the midline. How many units from the midline is each edge?

Draw a Small Creature from Shape Blocks: A Step-by-Step Guide

Original tasks 3, 4 / independent work

Task 3

A head block is 4 units wide. The left edge is 2 units left of the midline and the right edge is 1.5 units right of the midline. Is the head centered within the allowed half-unit difference?

Task 4

Two limb blocks are drawn. The left limb is 3 units long and the right limb is 2.5 units long. By how many units do they differ, and what adjustment makes them equal?
