Taro Drawing: Tuber and Heart-Shaped Leaf Construction

Original task 1 / independent drawing and calculation

Task 1

Draw only the tuber: an oval three units tall and two units wide, with three ridge lines and four root hairs.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Taro Drawing: Tuber and Heart-Shaped Leaf Construction

Original task 2 / independent drawing and calculation

Task 2

Draw only the leaf: a heart two units wide and one and a half units tall, with a central vein and four side veins.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Taro Drawing: Tuber and Heart-Shaped Leaf Construction

Original task 3 / independent drawing and calculation

Task 3

Combine a tuber two practice units tall and one practice unit wide with a leaf one practice unit wide and one practice unit tall. Place the leaf above and to the right, stem curving to the tuber top.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Taro Drawing: Tuber and Heart-Shaped Leaf Construction

Original task 4 / independent drawing and calculation

Task 4

Draw a tuber four units tall and two units wide with five ridges and eight hairs, plus a leaf two units wide and one and a half units tall with six side veins. Then list two valid variations.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
