Draw a Wrapped Birthday Gift: Box, Ribbon Bow, and Tag

Original worked example / unchanged complete key

Prompt: Draw a wrapped gift with a box width 9 cm, height 6 cm, depth 3 cm, one vertical seam 2 cm from the left front edge, ribbon bands meeting at top center, a two-loop bow, and a tag one-third the bow width.

Answer: A correct drawing shows a front rectangle 9 by 6 cm, a top parallelogram with 3 cm depth lines, a side face, a vertical seam 2 cm from the left, two ribbon bands crossing at the top center, a knot oval, two similar loops, two tails, and a small tag with a string to the knot. With a 1 cm knot and 2 cm loops, the bow width is about 5 cm, so the tag is about 1.7 cm wide. Lettering on the tag stays between baseline and midline.
