Frontal Drawing: Symmetry Guides for a Front-Facing Figure

Original tasks 1, 2 / independent work

Task 1

A frontal guide has a shoulder width of 14 cm. Mark both shoulder points from the axis and state their offsets.

Task 2

Eye centers are placed 4 cm left and 5 cm right of the axis. Identify the error and give corrected offsets for a 4 cm target.

Frontal Drawing: Symmetry Guides for a Front-Facing Figure

Original tasks 3, 4 / independent work

Task 3

A hip width is 9 cm. Mark hip points and verify with the midpoint test.

Task 4

A small feature is placed at a height that is above the x-height band. State the convention and one valid correction.
