PS Controller Drawing: Button Layout, Grips and Cable

Original tasks 1, 2 / independent work

Task 1

Describe where to place the directional pad and the four action buttons relative to the midline and the top line, using the hypothetical measurements from the lesson.

Task 2

A drawing shows the four action buttons in a square with 1.2 cm sides. Explain the mistake and give the correction.

PS Controller Drawing: Button Layout, Grips and Cable

Original tasks 3, 4 / independent work

Task 3

Describe how to draw the cable so it passes the check, including where it starts and how it ends.

Task 4

A student draws grips that extend only 2 cm down and curve straight outward. State whether this meets the lesson and explain the fix.
