Hawaiian Tribal Tattoo Motifs: Wave Bands and Turtle Patterns

Original worked example / unchanged complete key

Prompt: Draw a wave band 9 cm long and 3 cm high with three equal columns. Mark a baseline and a midline at 1.5 cm. Draw one wave crest per column that touches the midline at the column center and connects at the baseline.

Answer: A 9 cm by 3 cm rectangle divided into three 3 cm columns. Baseline at bottom, midline at 1.5 cm. Each column has a curve from bottom-left to midline center to bottom-right. Crests touch midline once and connect smoothly at baselines. All lines are the same width.
