Draw A–Z Letters with Stroke Order: A Guided Practice

Original task 1 / independent drawing and calculation

Task 1

Draw a capital A in a box 4 cm wide and 6 cm tall. Use the convention: left diagonal downward, right diagonal downward, crossbar left to right. Describe each stroke and check the endpoints.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Original task 2 / independent drawing and calculation

Task 2

Draw a capital B in a box 4 cm wide and 6 cm tall. Use the convention: vertical stem top to bottom, upper curve, lower curve. Describe the strokes and check contact points.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Original task 3 / independent drawing and calculation

Task 3

Draw a lowercase o in a box 4 cm wide and 6 cm tall with the x-height set to half the box height, so the x-height line coincides with the midline at 3 cm. Use one continuous curve. Describe the stroke and check x-height.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Original task 4 / independent drawing and calculation

Task 4

Draw a capital Z in a box 4 cm wide and 6 cm tall. Use the convention: top horizontal left to right, diagonal top right to bottom left, bottom horizontal left to right. Describe the strokes and check level and endpoints.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
