Angel Island Drawing: Shoreline, Hills and Bay Composition

Original task 1 / independent drawing and calculation

Task 1

Draw a 15 cm by 10 cm panel. Place the bay in the lower 4 cm, the shoreline at 5 cm from the bottom, and one hill ridge above. Describe where each element sits.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Angel Island Drawing: Shoreline, Hills and Bay Composition

Original task 2 / independent drawing and calculation

Task 2

A drawing shows two hills of equal size, one at the top and one at the bottom. Which should be smaller to show distance, and why?

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Angel Island Drawing: Shoreline, Hills and Bay Composition

Original task 3 / independent drawing and calculation

Task 3

You have a shoreline line of strength 3 and a distant hill line of strength 1 on a 1 to 3 scale. Which should be lighter, and what does that show?

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Angel Island Drawing: Shoreline, Hills and Bay Composition

Original task 4 / independent drawing and calculation

Task 4

Draw a simple island outline with one bay area and two hill ridges. Check that the shoreline does not touch the panel edge. State one valid alternative you could use.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
