Emo Clothes Drawing: Layered Garments and Dark Styling Cues

Original worked example / unchanged complete key

Prompt: On a hypothetical 24 cm figure with eight head units, draw a fitted tee, hoodie, skinny jeans, and studded belt. Place the belt at the waist guide and use six evenly spaced studs. Describe the layer order and one check.

Answer: Head unit is 3 cm. Waist guide is at 12 cm from baseline (four head units). Draw tee first inside the body outline, then hoodie overlapping at shoulders and hem, then skinny jeans tapering from hip to ankle, then belt at 12 cm. For six studs, use five equal center-to-center intervals; if the visible front is 10 cm, spacing is 10 ÷ 5 = 2 cm, with the first and last studs at the ends of that 10 cm span. Check: count six studs, confirm five equal gaps of 2 cm, and confirm the belt line sits on the waist guide.
