Jewelry Design Drawing: Pendant, Ring, and Earring Construction

Original worked example / unchanged complete key

Prompt: Sketch a pendant with a bail diameter of 5 mm and a body width of 20 mm. Use a hypothetical ratio of bail diameter to body width of 1:4. Check the ratio after drawing.

Answer: Draw a center line. Draw the bail as a 5 mm circle at the top. Draw the body as a 20 mm wide oval below it. Measure: 5 mm to 20 mm is 1:4, so the ratio matches the hypothetical example. The sketch is valid under the convention.
