Gorilla Head Drawing: Brow, Muzzle, and Ear Construction

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

Gorilla Head Drawing: Brow, Muzzle, and Ear Construction

Worked example / complete source key

A head guide is 12 units tall and 9 units wide. The brow box top is 4 units from the top, and the muzzle bottom is 2 units above the baseline. Where should the ear ticks sit?

Answer: Place ear ticks at about brow level, roughly 4 to 5 units from the top, on both sides of the head outline. Check that left and right ticks are equal distances from the midline.
