Gorilla Head Drawing: Brow, Muzzle, and Ear Construction

Original tasks 1, 2 / independent work

Task 1

A head guide is 10 units tall. The brow box top is 3 units from the top. What fraction of the head height is above the brow box?

Task 2

A muzzle box is 4 units tall and its bottom is 2 units above the baseline. How far is the muzzle box top from the baseline?

Gorilla Head Drawing: Brow, Muzzle, and Ear Construction

Original tasks 3, 4 / independent work

Task 3

A head is 8 units wide. Ear ticks are placed 3 units from the midline on each side. How much width remains outside the ear ticks on each side?

Task 4

A brow box is 6 units wide and centered on a 9-unit-wide head. How wide is the gap on each side of the brow box?
