# Easy Kitten Pencil Drawing: Head Proportions, Ears, Paws, and Fur Strokes

Original tasks 1, 2 / independent work

## Task 1

A head rectangle is 10 units wide and 8 units tall. Where should the eye midline be placed if it is halfway down?

## Task 2

Two ear boxes are each 2 units wide and sit on a head 8 units wide. If they are centered with a 1-unit gap between them, how much space remains on each side?

# Easy Kitten Pencil Drawing: Head Proportions, Ears, Paws, and Fur Strokes

Original tasks 3, 4 / independent work

## Task 3

A learner draws paw boxes 2 units wide and 1.5 units tall. If the two boxes are level and spaced 3 units apart, what is the total width across both paws and the gap?

## Task 4

A kitten head is 6 units tall. The nose is placed 1 unit below the eye midline, and the eye midline is halfway down. How far is the nose from the chin baseline?
