Draw a Peace Hand Sign: Finger Placement and Palm Angle

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

Draw a Peace Hand Sign: Finger Placement and Palm Angle

Worked example / complete source key

Draw a front-view peace hand sign on a 7 cm wide by 6 cm tall palm with a 1 cm base gap and 1.5 cm tip gap. The middle finger is 0.5 cm longer than the index finger. Fold the ring and little fingers to the midline and place the thumb diagonally across them.

Answer: Palm rounded rectangle 7 cm wide by 6 cm tall; wrist cylinder 3 cm tall centered below. Index finger capsule 5 cm long, middle finger 5.5 cm long, bases separated by 1 cm and tips by 1.5 cm. Folded-finger arcs rise 3 cm from baseline to midline. Thumb capsule lies diagonally from the palm side toward the center, tip overlapping the arcs but not the extended fingers. Guide line from wrist center to finger gap is nearly vertical.
