Draw a Kneeling Person Praying: Clasped Hands and Posture

Original tasks 1, 2 / independent work

Task 1

A drawing has a head oval 4 cm tall, a torso rectangle tilted forward, a leg trapezoid with both knees on the ground line, and a hand block 2 cm wide centered at chest height. The hand block has three overlapping finger lines. Check the drawing against the convention.

Task 2

A learner draws a kneeling figure but the hand block is 3 cm wide while the head is 4 cm tall. The block sits at waist height and has no finger lines. Identify the problems and state the fixes.

Draw a Kneeling Person Praying: Clasped Hands and Posture

Original tasks 3, 4 / independent work

Task 3

A drawing shows a figure with both knees on the ground line, but the torso is upright and the hips are at the same height as the knees. The hands are clasped at the chest. Does this read as kneeling prayer? Explain.

Task 4

A learner draws a praying figure with a forward-leaning torso, both knees on the ground line, and a hand block centered at chest height. The hand block is 1.5 cm wide and the head is 3 cm tall. The block has one straight line across it. Is the clasp acceptable? State the fix if not.
