Cartoon Face Feature Placement: Eyes, Nose, Mouth

Original tasks 1, 2 / independent work

Task 1

A cartoon face is an oval 12 cm wide and 16 cm tall. Use the horizontal midline as the eye line. Place eye centers at the quarter marks of the width. Place the nose tip halfway between the eye line and the bottom edge. Place the mouth line halfway between the nose tip and the bottom edge. Give positions in centimeters from the left edge or top edge.

Task 2

A cartoon face is a circle 10 cm wide and 10 cm tall. The eye line is chosen at 4 cm from the top instead of the horizontal midline. Place eye centers at the quarter marks of the width. Place the nose tip halfway between the eye line and the bottom edge. Place the mouth line halfway between the nose tip and the bottom edge. Give positions in centimeters from the left edge or top edge.

Cartoon Face Feature Placement: Eyes, Nose, Mouth

Original tasks 3, 4 / independent work

Task 3

A cartoon face is a circle 9 cm wide and 9 cm tall. Use the horizontal midline as the eye line. Place eye centers at the quarter marks. Place the nose tip at 6 cm from the top on the vertical midline. Place the mouth line at 7.5 cm from the top on the vertical midline. Check whether the nose tip and mouth line follow the halfway conventions. Give positions in centimeters from the left edge or top edge.

Task 4

A cartoon face is an oval 14 cm wide and 18 cm tall. Use the horizontal midline as the eye line. Place eye centers at the quarter marks. Place the nose tip halfway between the eye line and the bottom edge. Place the mouth line halfway between the nose tip and the bottom edge. Then move the mouth line 1 cm lower and state the new position. Give positions in centimeters from the left edge or top edge.
