Cute Easy Witch Drawing: Rounded Figure with Hat, Robe, and Broom

Original tasks 1, 2, 3 / complete keys

Task 1

Draw the cute witch figure with a head 3 cm wide and 2.5 cm tall, a hat brim above the eyes, a robe widening by 2 cm, and a broom beside the robe. Use a vertical center line.

Answer: A centered figure with a rounded head, cone hat and brim above the eyes, trapezoid robe, and a broom beside the robe with a bundle near the hem.

Reason: The four key shapes are placed using the center line and face midline, so the figure stays balanced and readable.

Check: Measure the head width and robe hem width with a ruler. Confirm the brim is above the eyes and the broom is beside the robe, not crossing the center.

Task 2

Redraw the figure with a taller hat cone and a wider robe hem. Keep the face midline and eye placement the same.

Answer: A valid variation with a taller cone and wider hem, while the eyes remain above the midline and the smile below it.

Reason: Changing hat height and hem width is allowed as long as the hat brim stays above the eyes and the robe remains a trapezoid.

Check: Check that the brim is still above the eyes and the robe still widens toward the hem. Confirm the figure is centered.

Task 3

Draw the figure with the broom on the left side instead of the right. Keep the handle parallel to the robe and the bundle near the hem.

Answer: A mirrored but valid figure with the broom on the left, handle parallel to the robe, and bundle near the hem.

Reason: The convention does not require a specific side for the broom. The key is that the broom is separate, parallel, and readable.

Check: Confirm the broom does not cross the face or robe center. Check that the bundle is wider than the handle and sits near the hem.

Cute Easy Witch Drawing: Rounded Figure with Hat, Robe, and Broom

Original tasks 4 / complete keys

Task 4

Add a short label under the figure using letters with x-height from baseline to midline. Then redraw the figure with different eye spacing and a different smile curve.

Answer: A labeled figure with valid lettering and a redrawn figure that keeps the four key shapes while changing eye spacing and smile curve.

Reason: Letter styles vary, and x-height is baseline to midline. Changing eye spacing and smile curve is a valid variation if the face remains readable.

Check: Measure the label x-height from baseline to midline. Check that the redrawn figure still has a rounded head, hat with brim, trapezoid robe, and broom beside the robe.

Cute Easy Witch Drawing: Rounded Figure with Hat, Robe, and Broom

Source rubric / reflection

- [ ] Rounded head is clearly visible and centered.
- [ ] Hat has a visible brim above the eyes and a cone tip.
- [ ] Robe is a trapezoid that widens toward the hem.
- [ ] Broom is beside the robe with a straight handle and a small bundle.
- [ ] Face details are placed using the midline: eyes above, smile below.
- [ ] Figure is balanced and readable as a cute witch.
- [ ] Valid variations are accepted if the four key shapes remain clear.

Reflection: What did you check, what did you change, and what will you try next?
