Jellyfish Drawing Reference: Bell Outline and Flowing Tentacles

Original worked example / unchanged complete key

Prompt: Draw a jellyfish with an 8 cm bell and five tentacles of lengths 3, 6, 9, 6, and 3 cm. Use a light source from the upper left and shade the lower right of the bell.

Answer: A centered jellyfish with a smooth dome bell 8 cm tall, a gentle bottom curve, and five S-curve tentacles alternating short, medium, long, medium, short. The upper left of the bell is light with a thin highlight; the lower right has two light shading layers following the dome curve. Thicker tentacles have a light side shade.
