Realistic Donut Drawing: Torus Form and Glaze Highlights

Original tasks 1, 2 / independent work

Task 1

Draw a donut from directly above. Show the torus form with a centered hole and a glaze band. Place one highlight on the upper left of the ring.

Task 2

Draw a donut tilted so the hole appears as an ellipse. Light comes from the right. Add a glaze highlight on the right side and a cast shadow to the left.

Realistic Donut Drawing: Torus Form and Glaze Highlights

Original tasks 3, 4 / independent work

Task 3

Draw a donut with a thick glaze that drips slightly over the outer edge. Use light from above. Show one main highlight on the top and a smaller one near the hole. Add a simple cast shadow.

Task 4

Draw two donuts side by side, both seen from a slight angle. Light comes from the upper left. Give each a glaze highlight and a cast shadow. Keep the forms consistent.
