Rock Band Lineup Drawing: Stage Layout and Instrument Placement

Original worked example / unchanged complete key

Prompt: A four-piece band on a stage 30 units wide. Pose boxes: singer 5 units, guitarist 5 units, bassist 5 units, drummer 6 units. Gaps: 2 units each between three pairs. Does the lineup fit?

Answer: Yes. Box total is 5+5+5+6=21 units. Gap total is 2+2+2=6 units. Combined total is 27 units, which is less than 30 units, leaving 3 units to spare.
