Panda Directed Drawing: Six Steps from Shapes to Bamboo

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

Panda Directed Drawing: Six Steps from Shapes to Bamboo

Worked example / complete source key

A student draws a panda on a 20 cm by 25 cm sheet. The head circle has a 6 cm diameter. The body oval is 8 cm wide and 10 cm tall. The bamboo stalk is 12 cm tall. The student's rubric scores are: head 4, ears 3, eye patches 3, body 3, limbs 2, bamboo 3. What is the total score, and which part needs the most improvement?

Answer: Total score is 4 + 3 + 3 + 3 + 2 + 3 = 18 out of 24. Limbs scored lowest at 2, so the student should redraw the limbs with rounded ends attached to the body edge.
