Panda Directed Drawing: Six Steps from Shapes to Bamboo

Original tasks 1, 2 / independent work

Task 1

A panda drawing has a head circle with a 5 cm diameter and a body oval 7 cm wide and 9 cm tall. The bamboo stalk is 10 cm tall. What is the total of these four measurements in centimeters?

Task 2

A student scores 3 on head, 4 on ears, 2 on eye patches, 3 on body, 3 on limbs, and 4 on bamboo. What is the total score out of 24, and which part scored lowest?

Original tasks 3, 4 / independent work

Task 3

On a 20 cm by 25 cm sheet, a head circle uses 6 cm of the width and the body oval uses 8 cm of the width. If the head and body are centered, how much width remains on each side of the body oval?

Task 4

A bamboo stalk is drawn as 4 segments, each 3 cm tall. The stalk is beside an arm that is 5 cm long. What is the total height of the bamboo stalk, and how much taller is the stalk than the arm?
