Cartoon Face Expressions: Swap Eyes, Brows, and Mouths

Original worked example / unchanged complete key

Prompt: Draw a surprised cartoon face using the convention: wide circle eyes with dot pupils, raised arc brows, and an open oval mouth. Place eyes on the midline 1.5 cm apart, brows 1 cm above eyes, mouth 1.5 cm below midline.

Answer: A face oval 6 cm tall and 4 cm wide. Two wide circles on the midline, each about 1 cm across, with dot pupils. Two raised arcs 1 cm above the eyes. An open oval mouth about 1 cm wide and 1.5 cm tall, centered 1.5 cm below the midline. The expression reads as surprised because the eyes are wide, brows are raised, and mouth is open. These measurements are hypothetical examples; scale them proportionally if your oval differs.
