Blushing Face Drawing: Cheek Shading and Expression Cues

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

Blushing Face Drawing: Cheek Shading and Expression Cues

Worked example / complete source key

A face oval is 10 cm wide and 14 cm tall. Midlines cross at the center. Place blush zones and state a medium intensity target using three passes.

Answer: Each blush center sits 2.5 cm from the vertical midline (halfway between the midline and the 5 cm outer edge) and 1 cm below the horizontal midline. Each ring is about 2 cm across. Medium intensity means three light passes with the darkest center about 1 cm wide and a fade that reaches the ring edge.
