Choir Group Sketch: Pose and Spacing Practice

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

Choir Group Sketch: Pose and Spacing Practice

Worked example / complete source key

A practice box is 18 cm wide. You want four singers in the front row with 1.5 cm margins on each side. What equal gap between adjacent centers gives even spacing?

Answer: Usable width is 18 − 1.5 − 1.5 = 15 cm. Four singers have three gaps, so each gap is 15 ÷ 3 = 5 cm. Mark four centers with 5 cm between adjacent centers, then draw baseline-to-midline axes.
