Comic Face Drawing: Exaggerated Eyes and Speech-Bubble Layout

Original tasks 1, 2 / independent work

Task 1

A face rectangle is 10 cm tall and 6 cm wide. Using the convention, state the eye-line height from the top, the height of each eye oval, and the eye width used for bubble clearance.

Task 2

A panel is 14 cm wide and 9 cm tall. The face occupies the left 8 cm. Using the convention, what is the minimum bubble clearance from the nearest eye, and how much horizontal space remains for the bubble?

Comic Face Drawing: Exaggerated Eyes and Speech-Bubble Layout

Original tasks 3, 4 / independent work

Task 3

A speech text needs a bubble with an inner margin of 0.5 cm on each side. The text block is 4 cm wide. What is the minimum bubble width? If the available free space is 5 cm, does the bubble fit?

Task 4

A face is 12 cm tall. The eye line is placed 5 cm from the top instead of the halfway convention. Is this a valid alternative? Explain using the rubric and state one check.
