Food Fight Drawing: Compose Flying Produce, Splatter Lines, and Expressions

Original tasks 1, 2 / independent work

Task 1

A student draws a flying apple with three motion lines. The wide ends point toward the launch zone and the narrow ends touch the apple. Using the convention, describe the correction.

Task 2

On a frame 20 cm wide and 14 cm tall, a focal item is placed 5 cm from the left and 4 cm from the top. Is it near the one-third focal point? Use simple arithmetic.

Food Fight Drawing: Compose Flying Produce, Splatter Lines, and Expressions

Original tasks 3, 4 / independent work

Task 3

A scene has four produce items all drawn at the same size and upright. Name two changes that would improve depth and motion.

Task 4

A character's expression cues are a tiny dot for an eye and a short straight line for a mouth. Suggest a fix and state how to check readability.
