Spring Scale Drawing: Hook, Dial, Body, and Markings

Original tasks 1, 2 / independent work

Task 1

Draw a spring scale with a hook at the bottom, a body, and a dial near the top. Add four evenly spaced tick marks around the dial. Do not label the parts.

Task 2

Draw a spring scale and add a body scale with five horizontal tick marks along one side of the body. Label the hook and the dial face with short label lines.

Spring Scale Drawing: Hook, Dial, Body, and Markings

Original tasks 3, 4 / independent work

Task 3

Draw a spring scale with a dial that has an inner circle, a pointer line, and six tick marks. Add a small connector between the hook and the body.

Task 4

Draw a spring scale and label all four parts: hook, dial face, body, and scale markings. Use a light center line and a darker final outline.
