Botanical Pen and Ink: Leaf, Stem, and Flower Detail

Original task 1 / independent drawing and calculation

Task 1

Draw a leaf 8 cm long with a straight midrib and 5 secondary veins per side. Add a stem 5 cm long that tapers from 3 mm to 1.5 mm (hypothetical example).

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Botanical Pen and Ink: Leaf, Stem, and Flower Detail

Original task 2 / independent drawing and calculation

Task 2

Create a hatching strip 3 cm by 1 cm divided into three equal parts with wide, medium, and tight spacing. Apply tight spacing to a leaf's shadow side.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Botanical Pen and Ink: Leaf, Stem, and Flower Detail

Original task 3 / independent drawing and calculation

Task 3

Block in a flower as an oval, refine the contour with petal edges, and add 2 ink details per petal. Label one part using the x-height convention.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Botanical Pen and Ink: Leaf, Stem, and Flower Detail

Original task 4 / independent drawing and calculation

Task 4

Draw a stem with two nodes 4 cm apart. Stem tapers from 5 mm at base to 2 mm at tip (hypothetical example). Add a leaf at each node.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
