Draw Two Reaching Hand Poses: Block-In, Proportion, and Annotation

Original task 1 / independent drawing and calculation

Task 1

Block in a reaching hand with palm width 3 units and palm length 4 units. Draw four fingers with hypothetical lengths of 4 units (middle), 3.5 units (index), 3.5 units (ring), and 2.5 units (little). Label the knuckle line and one joint per finger.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Draw Two Reaching Hand Poses: Block-In, Proportion, and Annotation

Original task 2 / independent drawing and calculation

Task 2

Draw a pointing hand with a palm width of 3 units and an extended index finger of 4 units. Fold the remaining fingers into a compact mass. Add an annotation box listing the index finger joints and the palm-to-finger ratio.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Draw Two Reaching Hand Poses: Block-In, Proportion, and Annotation

Original task 3 / independent drawing and calculation

Task 3

Redraw the reaching hand from the first exercise at half scale in a practice strip rectangle with a baseline and midline. Keep the same proportion ratios and label two joints.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Draw Two Reaching Hand Poses: Block-In, Proportion, and Annotation

Original task 4 / independent drawing and calculation

Task 4

Annotate both poses with one measured ratio each and one foreshortening note for the reaching hand. For the reaching hand, measure palm width and index finger length and record that ratio; for the pointing hand, measure palm width and extended index finger length and record that ratio. Use plain words for joints and keep all labels outside the contours.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
