Small Panda Drawing: Patch Placement and Proportion Steps

Original tasks 1, 2 / independent work

Task 1

A head circle is 8 cm wide. Using the hypothetical convention that each eye patch is one quarter of the head width, what is each patch width, and what is the recommended gap between patch edges?

Task 2

On a head circle 10 cm wide, a learner places patch centers 3 cm apart. Each patch is 2 cm wide. Do the patches overlap, and by how much?

Small Panda Drawing: Patch Placement and Proportion Steps

Original tasks 3, 4 / independent work

Task 3

A body oval is 9 cm wide and the head circle is 3 cm wide. Is the head about one third of the body width as the convention suggests?

Task 4

A learner shades the eye patches but leaves the ears white. Using the contrast convention, what is the main problem and one fix?
