Draw a Kawaii Puppy: Oversized Head, Simple Body

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

Draw a Kawaii Puppy: Oversized Head, Simple Body

Worked example / complete source key

A learner draws a puppy with a head height of 8 cm and a body height of 6 cm. The eyes sit above the head midpoint and are far apart. Identify the proportion and placement issues and give corrected hypothetical measurements.

Answer: The body is too tall: it should be about half the head height, so about 4 cm instead of 6 cm. The total figure would then be about 12 cm. Move the eye line slightly below the head midpoint and space the eyes about one eye-width apart, using the midline as a symmetry check.
