Draw a Layered Magnolia Bloom on a Branch

Original task 1 / independent drawing and calculation

Task 1

Draw a bloom with five petals: two back, one side, two front. Use a cup oval 3 units wide and 2 units tall, a receptacle 0.5 unit wide, and a stalk 1.5 units long. State your overlap order.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Draw a Layered Magnolia Bloom on a Branch

Original task 2 / independent drawing and calculation

Task 2

A branch is 8 units long with a joint at 4 units. Draw a bud with a stalk 1 unit long and a bloom with a stalk 2 units long from the same joint. Use equal receptacles. State a hypothetical bud-to-bloom width ratio.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Draw a Layered Magnolia Bloom on a Branch

Original task 3 / independent drawing and calculation

Task 3

Draw a bloom tilted 30 degrees to the left. Keep the cup oval 4 by 3 units and the receptacle 1 unit wide. Describe how the petal tips shift and where the stalk meets the branch.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Draw a Layered Magnolia Bloom on a Branch

Original task 4 / independent drawing and calculation

Task 4

Draw a branch with one open bloom and one bud. Use a branch 10 units long, a joint at 3 units for the bud and a joint at 7 units for the bloom. State your line-weight values and check the three rules.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
