Party Scene Drawing: Guests, Table, and Balloons

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

Party Scene Drawing: Guests, Table, and Balloons

Worked example / complete source key

A frame is 24 units wide and 18 units tall. The table is 12 units wide and centered. Guests stand 6 units from each side edge. Balloons occupy the top 6 units. Check whether the table leaves equal side spaces and whether the balloon zone is one-third of the frame height.

Answer: Side spaces: (24 - 12) / 2 = 6 units on each side, so guests at 6 units from each edge align with the table ends. Balloon zone: 18 / 3 = 6 units, so the top 6 units is one-third of the frame height. The layout is consistent with the guide.
