Pomegranate Drawing: Rind Contour and Seed-Cluster Detail

Original worked example / unchanged complete key

Prompt: On a 15 cm by 20 cm page, draw a pomegranate 12 cm tall and 10 cm wide with a crown 2 cm tall and a cut window 4 cm wide and 3 cm tall on the lower half. Show 15 seeds in three rows.

Answer: Mark a bounding box 12 cm tall and 10 cm wide. Draw a continuous oval contour with a slightly narrower top shoulder. Add a crown 2 cm tall with four short points connected to the shoulder. Place the cut window on the lower half, 4 cm wide and 3 cm tall, with an inner rind line 3 mm inside. Draw 15 seeds in three rows of five, leaving small gaps. Use heavier line for the outer contour and cut window edge, lighter line for seeds. Check crown height is 2 cm and cut window width is 4 cm.
