Draw a Realistic Cowboy Boot: Leather Shading and Stitch Detail

Original tasks 1, 2 / independent work

Task 1

A boot has shaft height 90 mm and foot length 135 mm. Is the foot length within the 1.4 to 1.6 ratio? Show the arithmetic.

Task 2

Using 2 mm stitch marks and 2 mm gaps, how many marks fit in a 20 mm seam section?

Original tasks 3, 4 / independent work

Task 3

A boot has foot length 160 mm and heel height 50 mm. Is the heel about one third of the foot length? Show the arithmetic.

Task 4

Light comes from upper left. Name where the highlight, core shadow, and reflected light should go on the shaft and toe.
