Wolf Cub Drawing: Juvenile Proportion Construction Guide

Original tasks 1, 2 / independent work

Task 1

A cub drawing has a head height of 3 cm. Using the guide ratios, calculate torso height, torso length, and leg length.

Task 2

A learner draws a torso 8 cm tall and a head 4 cm tall. Is the head-to-torso ratio correct for the juvenile guide? Show the arithmetic.

Wolf Cub Drawing: Juvenile Proportion Construction Guide

Original tasks 3, 4 / independent work

Task 3

Describe how to place the ears and muzzle on a cub with head height 6 cm, using the guide proportions, and state the resulting measurements.

Task 4

A drawing has head height 5 cm, torso height 3.5 cm, torso length 6 cm, and leg length 4 cm. Identify which dimension deviates most from the guide and by how much.
