Akita Drawing Guide: Head, Ears, and Curled Tail

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

Akita Drawing Guide: Head, Ears, and Curled Tail

Worked example / complete source key

Draw an Akita head with ears using a cranium circle of width 4 cm. The muzzle length is half the cranium width, and each ear height equals the muzzle length. What are the muzzle length and ear height?

Answer: Muzzle length = 4 cm ÷ 2 = 2 cm. Ear height = 2 cm. The ear base width is about one-third of 4 cm, or roughly 1.3 cm.
