Draw a Simple Oreo Cookie: Layers, Cream, and Embossed Pattern

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

Draw a Simple Oreo Cookie: Layers, Cream, and Embossed Pattern

Worked example / complete source key

Draw a side-view sandwich cookie with a cream layer 1 unit tall, two wafers each 2 units tall, and a total width of 6 units. Inset the cream by 0.3 units on each side. Then describe the shading.

Answer: The cream rectangle is 1 unit tall and 5.4 units wide after insetting 0.3 units on each side. The top and bottom wafers are each 2 units tall and 6 units wide, with rounded corners. The total height is 5 units. Shade the cream with light horizontal strokes and a bright top band. Darken the wafer sides with a mid-tone and add a narrow dark shadow at each wafer-cream junction. On the top wafer, add a central circle, a ring of six dashes, and a border of small dots inside the rim; thicken the upper-left edges and darken the lower-right edges to suggest raised relief.
