Draw Your Family in Labeled Portrait Boxes: A Guided Worksheet Plan

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

Draw Your Family in Labeled Portrait Boxes: A Guided Worksheet Plan

Worked example / complete source key

A learner has four labeled portrait boxes and one blank box. They fill three boxes and leave the blank box empty. Count the filled boxes, the empty boxes, and the total boxes. Then state one comparison between two filled portraits.

Answer: Filled boxes: 3. Empty boxes: 2. Total boxes: 5. Comparison example: one portrait shows glasses and the other does not. The counts match because 3 filled plus 2 empty equals 5 total.
