Anime Hair Practice: Spiked and Swept Shape Construction

Original tasks 1, 2 / independent work

Task 1

A head oval is 6 cm tall. C sits 1 cm above the midline. A spiked wedge tip is 4 cm from C along an up-right ray. Describe the wedge and give one check.

Task 2

Two swept bands each 1.5 cm wide at the root overlap by one third of band width. What overlap distance is used, and what does the check confirm?

Anime Hair Practice: Spiked and Swept Shape Construction

Original tasks 3, 4 / independent work

Task 3

On a blank head, a learner draws three spikes pointing up, up, and up-right from three separate dots. Name the main error and the fix.

Task 4

A swept style has one band curving left and two curving right from C. State whether this passes the direction check and why.
