Hair Strand Direction Under Head Tilt and Turn

Original tasks 1, 2 / independent work

Task 1

Front-view frame: draw four strand arrows from the crown. Two fall slightly left, two slightly right. Mark one overlap.

Task 2

Tilted frame: the head leans right. Draw three arrows. The left side is low. State which arrow is longest.

Hair Strand Direction Under Head Tilt and Turn

Original tasks 3, 4 / independent work

Task 3

Turned frame: the head turns left. Draw two near-side arrows and one far-side arrow. The far-side arrow must stop at the head curve.

Task 4

Crown bunching: draw five short lines meeting near the crown on any frame. Then draw one strand leaving the cluster. Label the cluster and the strand end.
