Negative Space Flower Drawing: Positive Petals, Negative Gaps

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

Negative Space Flower Drawing: Positive Petals, Negative Gaps

Worked example / complete source key

A flower outline has six petals and no overlaps. The center circle is positive space. How many gaps are there between petals, and which areas should be filled?

Answer: There are six gaps between the six petals. Fill the background around the flower and the six gaps. Leave the six petals and the center circle unshaded.
