Draw Your Dream House Worksheet: Labeled Rooms and Feature Checklist

Original tasks 1, 2 / independent work

Task 1

A sketch shows a rectangular house with three labeled rooms: sleeping room, cooking and eating room, and washing room. The student ticked reading nook and garden but did not draw or annotate either. Identify what is missing and state one fix.

Task 2

A student writes all room labels in tiny letters and adds arrows from the margin. The labels are shorter than the baseline-to-midline distance. State whether this meets the label convention and give a fix.

Draw Your Dream House Worksheet: Labeled Rooms and Feature Checklist

Original tasks 3, 4 / independent work

Task 3

A sketch has five labeled rooms and six ticked features, but all annotations are inside rooms and none are in the margin. The brief asks for space to annotate exterior and interior ideas. Is the worksheet complete? Explain.

Task 4

A student draws a house outline and labels four rooms, but ticks only two features. They claim the other two features are implied by the room names. Does this satisfy the feature checklist? Give a fix.
